Issue Date: 18/7/06	Author: Kevin Finegan Approved By: John Doherty

Environmental Policy

Anord Control Systems Ltd design and manufacture Electrical Switchboards and Motor Control Centres for the Petrochemical, Industrial Process, Computer Centre and Water Industry groups in the Irish, UK and International marketplaces.

Anord Control Systems Ltd are committed to complying with accepted environmental practices, including the commitment to meet or exceed applicable legal and other requirements, to strive for continual improvement in our environmental management system, and to minimise the creation of wastes and pollution. We will, therefore, manage our processes, our materials, and our people in order to reduce the environmental impacts associated with our work.

Our Environmental Policy provides the framework for setting and reviewing environmental objectives and targets. Our Environmental Policy is documented, implemented and maintained and communicated to all employees.

Anord Control Systems Ltd pledges to implement and operate the Environmental Management System to further enhance environmental performance. Our main objectives and commitments are to:

- **Continually review product and process design, and evaluate the options for eliminating, reducing or mitigating environmental impacts.**
- **Reduce, reuse and recycle waste and packaging**
- **Implement energy efficiency programmes**

This policy will be communicated to all parties who have an interest in the performance of our environmental management system, including the public. The Policy will be reviewed annually.

Managing Director.
